Central Chemical Consulting is an independent Perth based group of industrial scientists which has been providing technical services to the resource sector for over 25 years.

Our areas of expertise include:

- ▶ Surface chemistry
- ▶ Rheology and solid-liquid handling
- ▶ Inorganic and industrial chemistry
- ▶ Process optimisation and improvement

Our highly skilled team has worked with a broad range of clients from large mining and mineral processing companies through to the construction, biotechnology and oil and gas industries. We provide R&D, technical and specialist testing services.

Capabilities include:

- ▶ Surface characterisation
- ▶ Fluid rheology
- ▶ Chemical additive losses
- ▶ Chemical and statistical modelling
- ▶ Process development
- ▶ On-site support
- ▶ Improved process monitoring
- ▶ Spectroscopic analysis
- ▶ Product development/improvement
- ▶ Technical problem solving
- ▶ Corrosion studies
- ▶ Technical audits and literature reviews
